COVID is impacting all of us in different ways: some financially, some physically, and others even mentally or relationally.

No matter how it's effecting your and your friends/family at the moment, there's help and there are ways for you to help others. Our church is part of a community-wide awareness campaign to let all of our neighbors know where they can give help and get help.

Together, we can all overcome the challenges no matter how big they are. When we help each other, we make Big D even bigger. Click [here](#) to see the site.
